For this afternoon workshop, Slovak experimental artist and music instruments creator Jonáš Gruska is going to lead you in the making of a unique device named "Elektrosluch" in its new, upgraded version "Elektrosluch Mini City".

Elektrosluch is an open-source device for electromagnetic listening. It allows one to discover sonic worlds of electromagnetic fields that are invisible ever present part of our environment.

All the necessary parts, including battery are provided but there are two things you need to bring:

- soldering iron
- headphones

Places are limited to 12 people.
register at bernhard@rackcrash.com

Price of a single kit is 44 euros, the workshop is free.
